

The place is full, it's hot and the fans are patient. Any moment Michael will be on stage. He starts with - Doctor Doctor- (show fog....hahahaha) Ufo, the band he left the scorpions, for in 1970. Michael is proving why he is the legend, he is with his fast solos and the melodies that stick in your ears. The audience is happy.

With Michael Voss in Jovel- Studio

Thanks to Michael Voss/Jovel Studio from Muenster, Michael Schenker recorded the backing tracks for his breath taking -Live-Guitar Demonstration. 7 songs in only 2 days. A "Marathon" Voss recalls. Everything was done and ready to support Michael's live guitar for the presentation of the famous speaker company "BOSE".

Shy Artist

Michael Schenker is very shy says the producer Voss. He knows Schenker quite a while and they prepared the new MSG production in his Studio." Yes, we worked on our new ideas there" says Michael Schenker in between playing live and signing autographs. Michael Voss is proud to have kick started the new Barden/Schenker production in his studio. Schenker got out his songs and then we worked on the Lyrics and Melodies. For Voss a dream come true. Voss was still a kid when Schenker/Barden were "Famous"! Still today Voss adores Germany's Guitar Export NO 1 ! I think "Michael Schenker is Unique" says Voss !
